

YOUR AUDIENCE IS THE BRIEF.

Your audience already wrote your next content brief

Turn audience comments into evidence-backed YouTube Shorts and LinkedIn documents.

NextBestContent

GENERATED IMAGE · FICTIONAL CREATOR

BUILT BY TRIPODS

Creators have feedback everywhere—and still guess what to make next

SYNTHETIC EXAMPLE · MAYA MAKES SPACE

REQUEST

“Please show the mistakes and fixes—not only the reveal.”

UNANSWERED QUESTION

“What survives a west-facing balcony if I miss one watering day?”

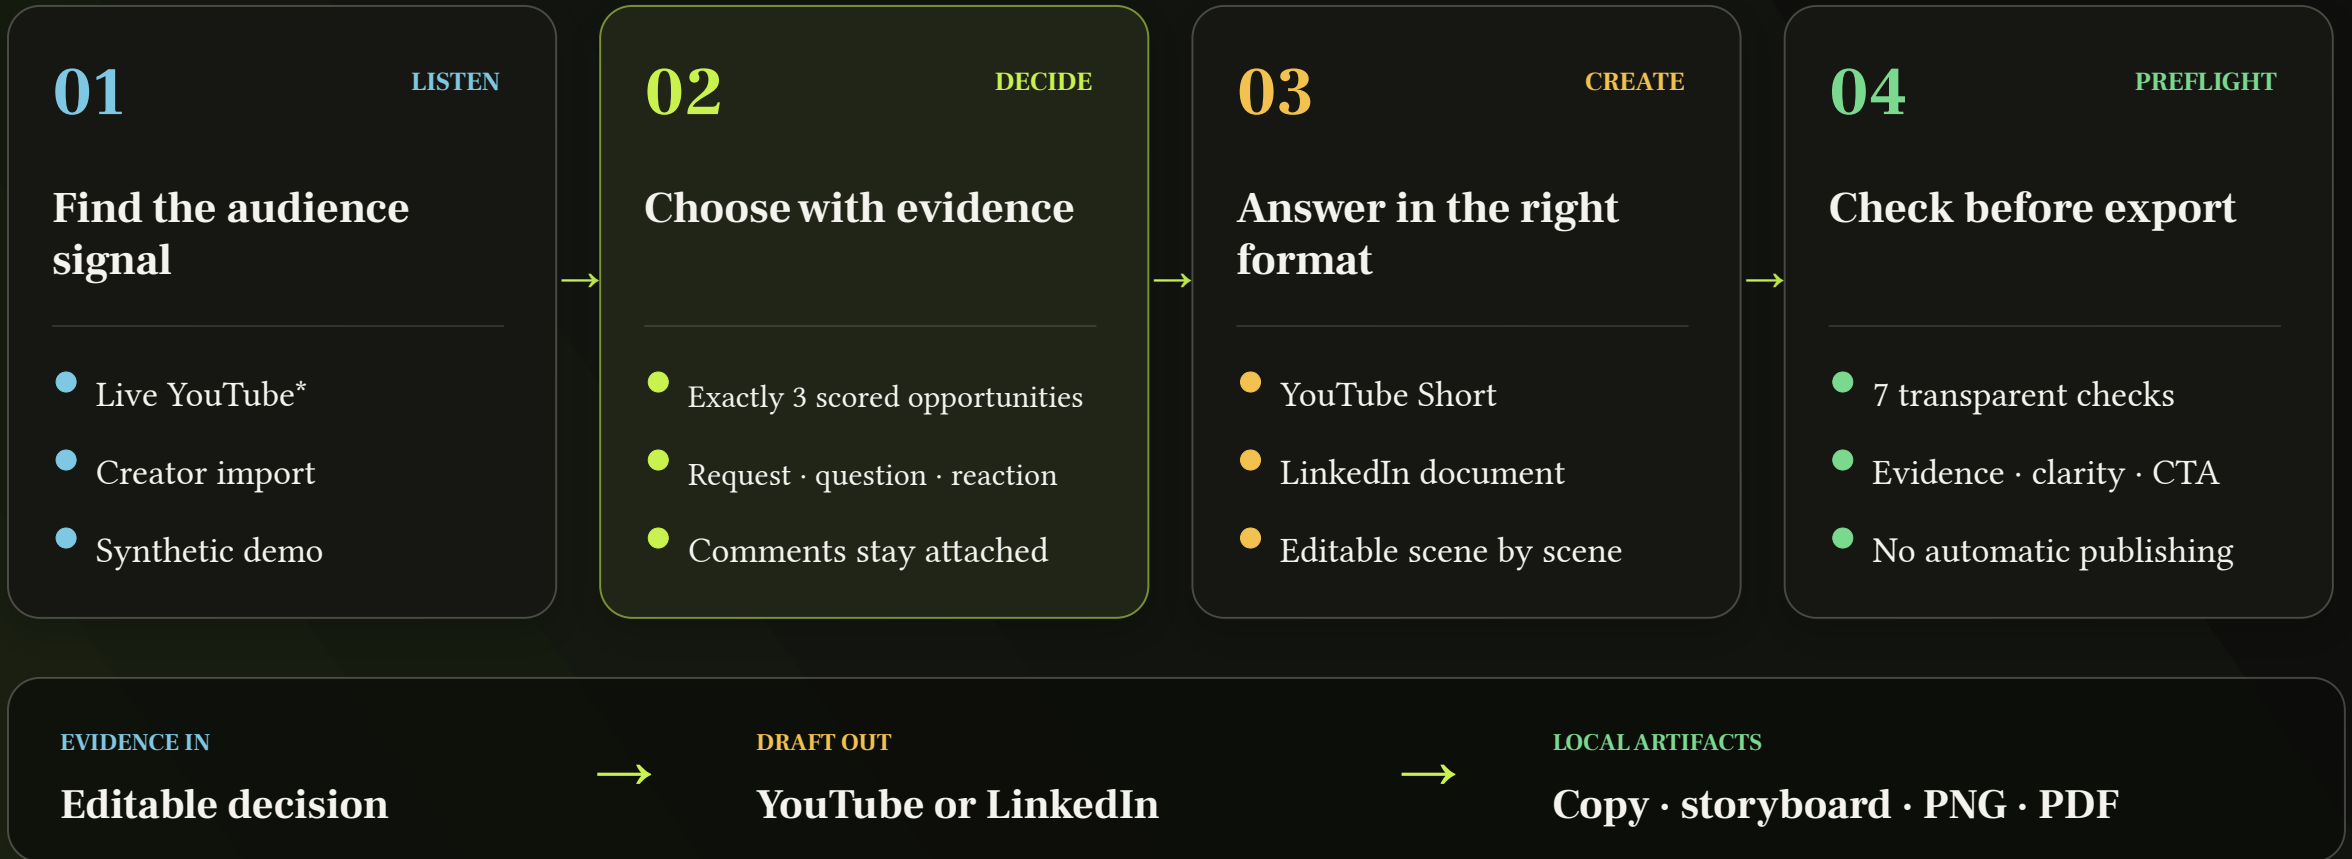

STRONG REACTION

“The failed first setup was more useful than the perfect reveal.”

Useful evidence—scattered, unranked, and not yet a production plan.

NextBestContent turns comments into a decision, not another dashboard

One visible chain. Source and destination stay independent.

*Live YouTube remains policy-, profile-, model-, and configuration-gated.

Maya’s audience asks for the next story—and gets two answers

SYNTHETIC DEMO

SOURCE · “I Turned a 2m² Balcony Into a Food Garden.”

SELECTED SIGNAL · “Show the mistakes and fixes—not only the reveal.”

3 mistakes that nearly killed my balcony

FICTIONAL CREATOR + COMMENTS · BUILT BY TRIPODS

YOUR AUDIENCE IS THE BRIEF.

Built for a public demo—and private real work

PUBLIC VERCEL

Safe by design

- Synthetic demo only
- No creator credentials
- No paid model calls
- No fake publishing
- No silent fallback

LOCAL DOCKER / SELF-HOSTED

Creator-controlled

- Creator-owned comment imports
- User-owned server-side OpenAI key
- YouTube behind policy + config gates
- Real local exports

KEY BOUNDARY

Keys remain with the creator. Model-bound content travels from their container to the configured provider.

298 tests passing · lint · type-check · build green

Your next content idea is already in the comments

Try Maya's complete synthetic journey—then take the private workflow home.
